## Electronics and Communications Engineering

## SUMMARY

Dependable and experienced Electronics Engineer working 6 months as an Indie Game Developer. Can handle entire app development life cycle process, from ideation stage to publishing & documentations. Have published more than 4 games on the google play store. Eager to join a startup that can utilize my skills and experience.

## Programming Language

**C++, Java**

## KEY SKILLS

**Unity3D, Data Structure, Algorithm, Coordination, Creativity, Communication**

## Achievements

- **2nd position in National Senior Championship** Grand Finale of Techradiance'18 at E-Cell **IIT Kharagpur** organized by Harbour Technologies.
- **1st position** in Zonal Round of Techradiance'17 organized by Harbour Technologies in association with Radiance, **IIT Bombay**
- **1st position** in Techradiance'18 (Bluetooth Robotics) organized by Harbour Technologies in association with Aakaar, **IIT Bombay.**
- Participated in **Android Application Development** conducted by Geeks lab Technologies Pvt. Ltd. In association with AIESEC **IIT-DELHI.**
- Participated in **Internet & Website Development using CMS**. Organized by Surya Technologies

## Final Year Project

**Developed a WIRELESS BOMB DEFUSING ROBOT With live video support.**
The goal of the robot is to save human lives while being affordable and accessible.
It is a low-power wireless robot that works on the esp32 cam module.
For the live video feed and the control of the robot, it uses 2.4Ghz Wi-Fi technology.
An android app or any device with Wi-Fi and browser support can control the robot.

## EDUCATION

### B.Tech (2016-2020)

**Ramgovind Institute of Technology**                                              First Division

Electronics and Communications Engineering

### Intermediate (2015)

**N.J.S Inter College**                                                          Second Division

### Matriculation (2013)

**B.R.L D.A.V Public School**                                                       First Division
